

# DormBot

Eliminating and Mitigating Messes.

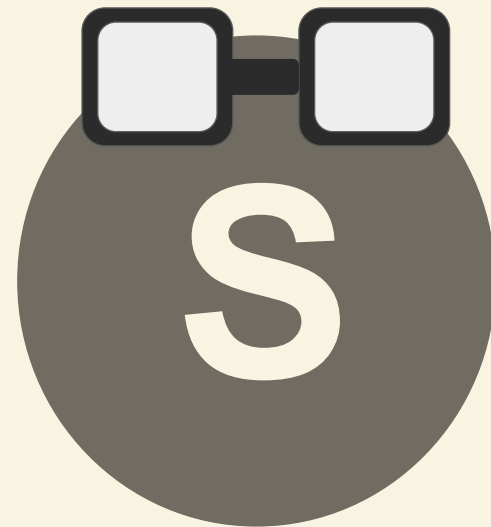

# The Designers of Dormbot

**Dakota - Lead  
Development**

**Aj - CEO of  
Design**

**Shelby - Head of  
HR/Marketing**

My food always goes missing and my stuff is never where I leave it when I come home!

If only there was a way to see what your roommate is doing when you're not home!  
Wait a minute...

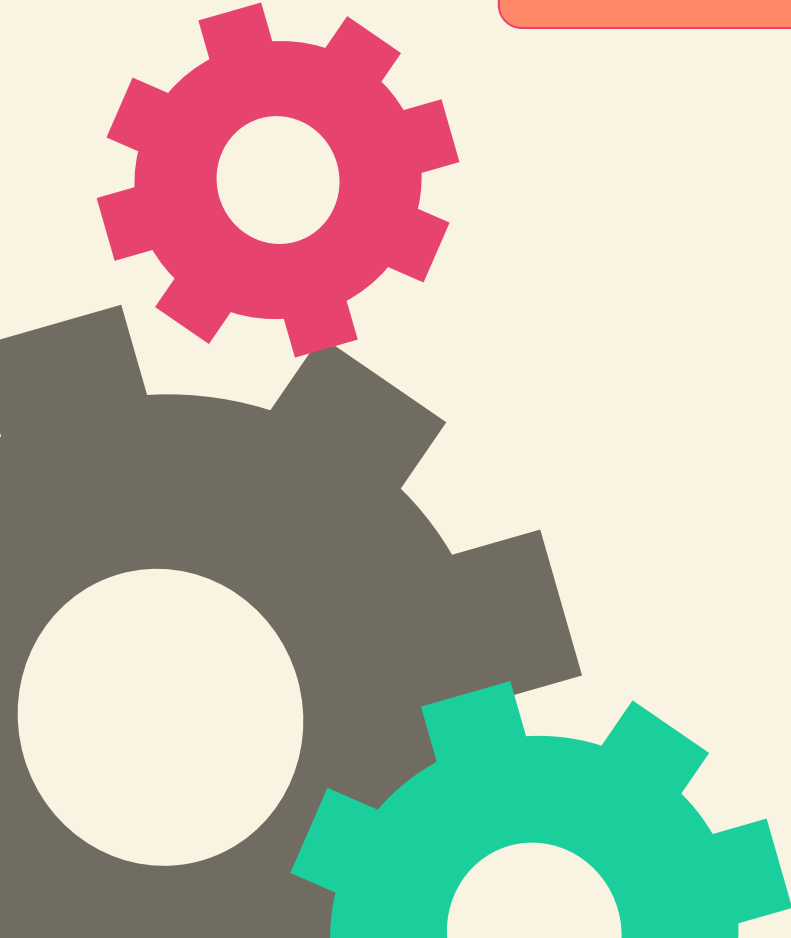

**INTRODUCING  
DORMBOT!!!**

# Dormbot is Good For...

- Keeping an eye on your roommate (Camera feature)
- Keeping your apartment smelling fresh (Smell settings)
- Sprucing up your apartment with new lights (light settings)
- Protecting important items (defensive mode)
- And much more!!!!

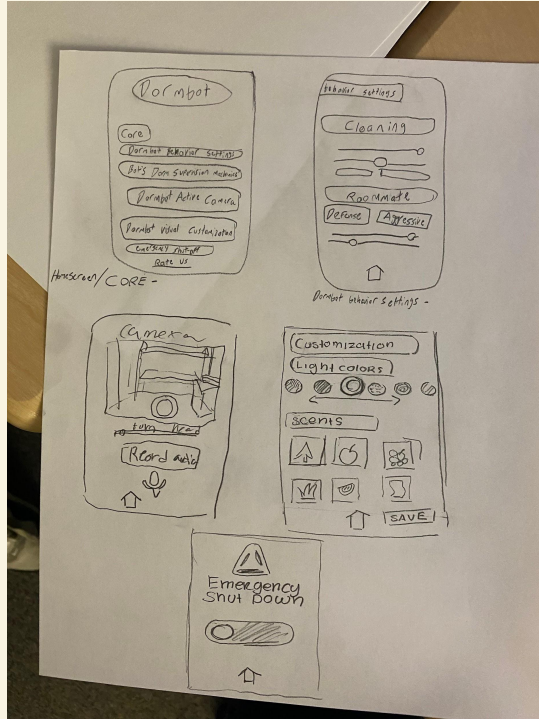

# Our Audience

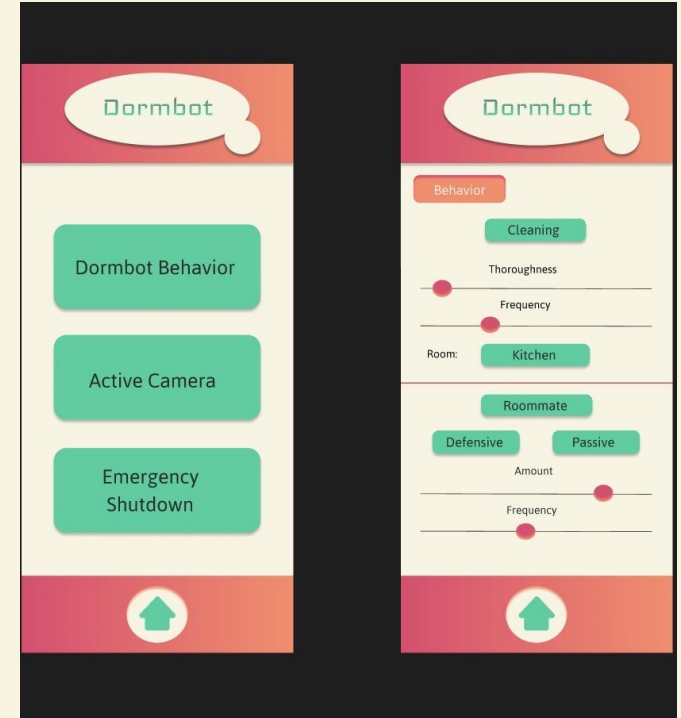

Dormbot is aimed towards **young adults**, in and out of **college**, who are worried about what happens in their dorm/apartment or their roommate does when they're away and wish for some form of control and safety!

# Design Evolution

Less clear and cluttered

Clear and easy to navigate

## Our Prototype

# Reflections

- Testers say that our app is very easy to navigate
- Almost too simple?
- We had to change the title options a little to user preference
