Jax Blocks

The party platform where you make the games

What is Jax Blocks?

Jax Blocks is a gaming platform that provides its users with easy access to creating and playing party games with their friends and families.

Develop Games

Jax Blocks' built in dev kit simplifies the process of creating games as well as provides clear, simple tutorials on how to code so all users can easily create the party game they desire.
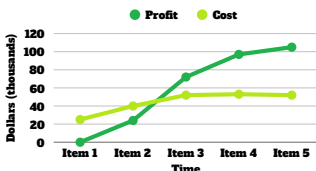

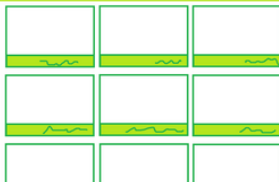

Find Other Games

Anyone can publish their game publicly to the platform for anyone to find and play. Games are sorted by their style and type so users can easily find what they're looking for.

Price

Jax Blocks will be priced at around 15$/month to give the users access to creating and hosting games; However, joining a game someone else is hosting is free and doesn't require a subscription.

Everyone Can Play!

Jax Blocks' servers are web based so users can join their friends on any device that has a search engine. Play with your friends on computer, phone, or tablet as Jax Blocks' controls adapt for touchscreen, keyboard, or controller inputs.
